

A wide-angle landscape photograph of a coastal area. In the foreground, dark, choppy ocean water meets a rocky shoreline. Several small, dark rock formations are scattered across the water. To the right, a large, green, hilly island or peninsula extends into the distance. The sky is filled with large, white, billowing clouds. Two distinct rainbows arc across the sky; one is bright and visible from the left horizon to the right, while the other is fainter and positioned higher up. The overall scene conveys a sense of natural beauty and weather phenomena.
